**FOR IMMEDIATE RELEASE**

## **A Gift from Montage Health Supports Clients at Hope Housing in Marina**

Marina, CA. April 2026

**Hope Housing** is excited to announce it has received a **\$10,000** grant from **Montage Health** in support of its Hope Housing program in Marina, California. The funding will help advance the program's mission of providing a safe, supportive bridge housing environment for individuals facing substance use and mental health challenges.

Since opening in August 2024, Hope Housing has worked to provide a safe, supportive bridge housing environment for individuals facing substance use and mental health challenges, and this funding helps us continue doing this work in a way that empowers the people we serve.

The grant will directly support **Peer Support Specialists** with lived recovery experience, help maintain clean and healthy shared living spaces, and fund community-building events that bring residents together. These resources **strengthen recovery, reduce isolation, and help residents feel supported** as they work toward permanent housing

Hope Housing extends sincere thanks to Montage Health for their commitment to advancing healthier, more hopeful communities in Monterey County.
